WORK EXPERIENCE

Conexiom

Jul. 2022 – Apr. 2023

Senior Front-end Web Developer

Tel Aviv District, Israel

I currently lead the design and implementation of web applications and micro frontend, prioritizing software quality through Test-Driven Development. Additionally, I'm dedicated to creating comprehensive documentation for software processes and closely collaborating with cross-functional teams to ensure seamless system integration. Concurrently, I provide leadership and direction as the head of the frontend department. Notably, my significant contributions continue at Conexiom, where I'm instrumental in automating manual data entry processes for leading global companies, revolutionizing their sales order processing from manual to automated systems.

Mrkter

Jul. 2022 – Apr. 2023

Senior Front-end Web Developer

Tel Aviv District, Israel

I spearheaded the optimization of mrkter's FinOps solution, revolutionizing marketing expense management, while concurrently crafting an enriched online banking platform with superior user experience and UI using React.js, all underscored by a commitment to cutting-edge technology and robust software practices.

Magnificode

Jan. 2021 – Jul. 2022

Senior Front-end Web Developer

Tel Aviv District, Israel

I led critical projects such as Photo Stock, Hiring Platform, and Graphic Design Tool, implementing an innovative screen ratio system for impeccable UI, collaborating across teams to integrate frontend with backend, leveraging React/Next.js for top-tier interfaces, and fostering team growth through mentorship and proactive tech initiatives.

Upwork

Jan. 2020 – May. 2022

Front-end Web Developer

Jersey City, NJ

I've achieved Upwork's Top Rated Plus badge that represents the top 3% of performers, maintaining a 100% success rate and securing 'Worker of the Month' titles, emphasizing my commitment to excellence and client satisfaction. [Link to my profile.](#)

Zipsale LTD

Jul. 2020 – Dec. 2020

Front-end Web Developer

London, England

I played a pivotal role in developing a crucial Minimum Viable Product (MVP) at a pioneering cross-listing software startup, securing essential funding and ensuring timely, user-friendly, and accessible project completion.
